PROJECTS

Clock: Alarm, Stop-Watch, Timer | HTML, CSS, ReactJS

- Designed and developed a modern, interactive landing page showcasing Analog Clock using ReactJS.
- Infused the page with creative and compelling visuals to capture attention and spark interest in Users.
  Project Link: https://anurag123kumar.github.io/Clock/

Weather App | HTML, CSS, OpenWeatherMap API

- Built a dynamic weather app using HTML, CSS and OpenWeatherMap API to showcase my front-end development skills.
- More than just code: My weather app highlights my user-centric approach to front-end development.
- Real-time weather data and forecasts presented.
  Project Link: https://anurag123kumar.github.io/Weather_Detection/

Text to Speech | HTML, CSS, JavaScript

- Honed my skills in front-end development by crafting a responsive and user-friendly interface which can convert Text to Speech.
- It has different languages to change from different area making it convenient to use for the users.
  Project Link: https://anurag123kumar.github.io/Text_to_Speech/
